Norwich, Monday, March 10, 1913,

the Circulation of the Bulletin.

The Bulletin has the largest cir culation of any paper in Eastern Connecticut, and from three to four times larger than that of any in 3,000 of the 4,053 houses in Norwich, and road by ninety-three per cent. of the people. In Windham it is delivered to over 900 houses 1.100, and in all of these places i considered the local daily. Enstern Connecticut has forty-

nine towns, one hundred and sixtyfive postoffice districts, and sixty rural free delivery routes. town and on all of the R. F. D

routes in Eastern Connecticut. CIRCULATION

MENAGE TO ANY CITY. If Norwich has a firebug he cannot of others. Such a person has no rethe quicker he can be lodged in a place of safety the better for the city.

There is no greater terror to a city than a firebug and the experiences of this city are nothing compared with what Waterbury and Springfield have gone through in endeavoring to folthe path of the torch. It is an experience which no city desires, an abnormal condition which should receive the quickest check possible and the proper punishment applied both as and as a lesson. A firebug is one of the most unwolcomed visitors trot period in art. who thrusts himself upon a city and

THE COAL SITUATION.

The coal question promises to fur nish pienty of trouble in the future being cancelled through the far more unless some federal action is taken satisfactory method of peace. to place the business under control such as the interstate commerce commission exerts over the railroads. The cl are going to be rapid collectors normal and healthy. opinion given at the session of the of dirt. This means more filthy lucre. New England Coal Dealers' association, that similar trouble and continued high prices can be anticipated for next winter is not encouraging. It cates a dituation on the part of the producers which is directly against the consumer. It means not only that the lesson of the past winter has not been beeded but there is no disposi-tion to change the state of affairs. The truth of the opinion voiced at the coal dealers' gathering is substantiated week which brought forth the announcement that the mines would be operated but half time because quantitles of coal are being put on the market at a lower price.

This is the trouble with the coal sit-uation. When the mines can be operated for the creation of a surplus to be drawn upon when trouble ensues or the mines are unable to supply the demand, they are closed and the sur plus is not secured, with the result that. this spring is liable not to see the usual reduction in the price of coal and by the curtailing of production the prices can be kept up. Thus the market is manipulated against the connot warrant it. This evidence of monopolistic tendencies furnishes the new administration much food for thought

WHERE ACTION IS NEEDED.

Efforts are being made in certain sections to create a feeling against the republic of Mexico which will keep up the strife and warfare which has existed there for a number of years. It also includes an attempt to throw discredit upon the administration of Ambassador Wilson, whose services there throughout the troublesome period will be relieved as soon as a sucessor is named. This country's policy has been to let Mexico settle her own difficulties, in so far as foreigners that this will be continued. The asofficials is not approved by this country, but that is a method which is peculiar to Mexico and understood

Whatever may have been Madero's attitude towards this country it is safe to say that Ambassador Wilson never gress over the president's veto promsanctioned any anti-American feeling. His influence was exerted for the protection of the lives of American citizens and foreigners in the country. A New York chauffeur being acopportunity to ever an umbiased judgment as to the best action, but to infer that he was actuared by any monity is wishout reason. Much has been done to get this country to take an active part in the Mexican affair, but jingolsm has thus far falled to assert any appreciable influence. Whatever action is taken it should be ngainst permitting organized efforts being made in this country for the many appreciable influence. Whatever action is taken it should be ngainst permitting organized efforts being made in this country for the country of the problems of the exceptional developed in the country to take an active part in the first made by the Young Women's permitting organized efforts being made in this country for the country for the problems of the exceptional developed in the country to take an active part in the Mexican affair, but jingolsm has thus far falled to assert any appreciable influence. Whatever action is taken it should be negating the problems in the device of the problems of the exceptional development in children, and for the study of its causes.

A New York chauffeur being acquirted of murder, the judge ironicable appears to the trinity being undern tool find the except of the problems of the except distress gone. No indigestion, heart distress gone. No indigestion, heart distress gone. No indigestion, heart distress gone. No indigestion to the trinity being undern the trinity being undern tool find the except of the problems of the except distress gone. No indigestion, heart distress gone or indigested food, no distress gone. No indigested food, no distress gone. No indigested food no distress gone. No indigested food no distress gone. No indigested food nor distress gone. No indigested food no distress gone. No indigested food nor distress gone from any drug store and put of the food and in the containt of the problem He was on the ground and had an

FILLING OFFICES.

How much the threatened break beween President Wilson and Chairman McCoombs of the democratic national mmittee is going to amount to is among the uncertainties. It is posi-tive however, that patronage is going SUGGESTIONS FOR to be one of the important questions with which the new administration must wrestle. President Wilson is a strong advocate of civil service reform, which means a recognition of merit in office and how far that may be applied to the filling of offices will depend upon the pressure which is exerted. In a few instances Mr. Wilson has made appointments which the senate had refused to confirm for Mr. Taft and there still remains several hun-

the renaming of Charles P. Neill as ommissioner of labor statistics, the retention of Major General Wood and the renaming of Commissioner Clark for the interstate commerce commission. All of these officials have proved efficient government servants and a change at this time would have been against the best interests of their respective lines of work. The announcement of Postmaster General Burleson Mix v that except for inefficiency, postmas-green ters will serve until the expiration of their terms is another indication of the policy of recognizing merit until such a time as new appointments come

A recognition of merit is shown by

THE IMMIGRATION BILL.

Many excellent provisions were contained in the immigration bill which was vetoed by Prescident Taft on the grounds of the literacy test although he realized that there were clauses

A good way to clean a carpet sweep er is to remove the brush and after rubbing off all the hairs and lint rub it well with kerosene. Let the brush remain in the air until all the odor has evaporated. The sweeper will leave the carpets and rugs looking much brighter after this treatment.

the New York Post says: 'It is an interesting speculation what the chances of passing a bill similar to the pan of cold water, and let them stay belingham-Burnett measure would be seven to eight minutes. Then take hem out with a cake turner, so they will not break, place on a buttered pan and crisp in a hot oven. The change

For some little time past it seeme as though the popular bands of tulis jeweled lace and chiffon that swathe snell pins or combs.

But the majority of women seem to of others. Such a person has no regard for his fellowman, is no respecter of the property of others, does not hesitate in the satisfying of his mania to endanger life and limb, and the quicker he can be lodged in a place of the property of the detriment of the other good points which a new bill might embrace. It

COLORING GLOBES.

One can make electric light globes look like frested glass with alcohol and shellac. Take a little white shellac, thin with alcohol, dip the globe into it and hang to dry. It is a good imitation of frosted glass. If a color is desired, get egg dyes and dissoive the mixture in wood alcohol and mix into it a little shellac. Dip the globes into the mixture and you get a pretty shade. If at any time you wish to have the clear globe again the color can be removed by soaking the globe in wood ook like frosted glass with alco ceedings were refreshing by their emoved by soaking the globe in wood dechel. This is a clever idea for coldesired during a party or entertain-
